### **About Screen Producers Australia:**

Screen Producers Australia was formed by the screen industry to represent large and small enterprises across a diverse production slate of feature film, television and interactive content. Our members employ hundreds of producers, thousands of related practitioners and drive more than \$1.7 billion worth of annual production activity from the independent sector.

On behalf of these businesses we are focused on delivering a healthy commercial environment through ongoing engagement with elements of the labour force, including directors, writers, actors and crew, as well as with broadcasters, distributors and government in all its various forms. This coordinated dialogue ensures that our industry is successful, employment levels are strong and the community's expectations of access to high quality Australian content have been met.
